Shall Tillamook School District No. 9 help address student safety projects by issuing not more than \$1,000,000 in general obligation bonds? Summary 175 words

Tillamook School District is responsible for the education and safety of almost 2,000 students every school day. In order to increase the safety for students and staff, the District is seeking approval of a measure to finance safety related projects at a cost of approximately \$0.08 per \$1,000 or \$8 per year on \$100,000 of assessed value. If approved, this measure would provide funds for bond issuance and capital costs such as the following projects:

- Installing interior classroom doors
• Installing electronic door-lock systems to enable automatic building lock down
• Installing interior and exterior video surveillance
• Upgrading intercom systems
• Installing fencing
• Upgrading classroom door locks
• Improving school entrance visibility
• Improve exterior lighting
• Paying bond issuance costs.

If excess funds remain, additional safety-related projects may be pursued.

Bonds would mature in ten (10) years or less from issuance date and may be issued in one or more series.
