I found a 2" iron pipe with a 3" Tillamook County Surveyors brass cap in a 10" clay tile filled with concrete approximately 3" below the surface disturbed by field cultivation. I reset at vertical and drove to approximately 6" deep and added new concrete. The found BT checked very well as shown below.

History of found monument

I found this monument to be as described on Tillamook County Surveyors rewitmess #89 and the accessories found and or set at that time to now be as follows:

10" alder N.63*W. 97.8' (Now gone).

22" spruce N.86*W. 105.67'; (Now 'a 23" stump 4' high scribing visible on partially healed face).

*84" hat section post East 296.0' (Found in the westerly R/W fence on Miami Foley County Road).

Surveys of Reference not listed on said rewitmess

New Accessory

*4" diameter treated fence post N19*E 34.65'

*Indicates yellow Tillamook County Surveyors location poster attached.

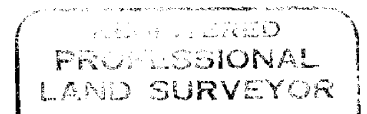

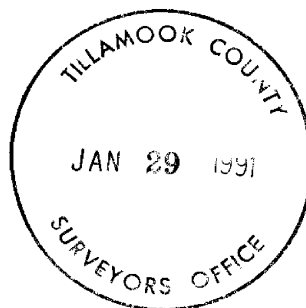

Monument Location

This corner is located approximately 350 west of Miami-Foley County Road, approximately 50' North of a ditch line, and approximately 35' South of a fence line course Easterly and Westerly.
