

7150 Cadastral Engineering

Statement of Record

On March 22, 1972, L.W. Hummellier and Richard Ikola employed by the U.S. Forest Service and John L. Carlich, County Surveyor, Tillamook County, visited the  $\frac{1}{4}$  corner between Sections 22/27, Township 3 South, Range 9 West, to determine if there was sufficient evidence to brass cap this corner and use it as control to establish center of Section 22.

We found two bearing trees, a 26" scribed hemlock, and 26" alder (alder laying on ground) and a 1" pipe. Also a location tag dated 1949 by M. Whitmore. Bearings and distances check with those mentioned in John Carlich's notes for Quentin Barba in Sec. 27, August 1956. John Carlich stated this iron pipe is the one mentioned in his notes and is the legal corner.

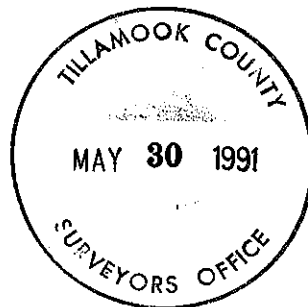

Signed *L.W. Hummellier* USFS  
Signed *R.W. Ikola* USFS  
Signed *J.L. Carlich 4/6/72* Tillamook County Surveyor

May 30, 1991

This corner report was found in a correspondence file and is being recorded to preserve record information.

Statement of Record

On March 22, 1972, L.W. Hummaller and Richard Ikola employed by the U.S. Forest Service and John L. Carlich, County Surveyor, Tillamook County, visited the  $\frac{1}{2}$  corner between Sections 22/27, Township 3 South, Range 9 West, to determine if there was sufficient evidence to brass cap this corner and use it as control to establish center of Section 27.

We found two bearing trees, a 26" scribed hemlock, and 24" alder (alder laying on ground) and a 1" pipe. Also a location tag dated 1949 by M. Whitmore. Bearings and distances check with those mentioned in John Carlich's notes for Quentin Barba in Sec. 27, August 1956. John Carlich stated this iron pipe is the one mentioned in his notes and is the legal corner.
