July 7, 2022

RE:

Petition for Oceanside Incorporation, #851-22-000224-PLNG

Hypothetical Quarterly Breakdown of Projected Oceanside Income/Expenses

Commissioners:

At the June 20, 2022 hearing in this matter, the Tillamook County Board of Commissioners (the "Board"), specifically, Commissioner Skaar, requested that Petitioners provide a breakdown of how potential revenue sources cited in the hypothetical first and third year budgets in the Economic Feasibility Statement (EFS) would be allocated to identified expenses in a monthly or quarterly cash flow table broken down by accounts. Immediately after the hearing, County Treasurer Shawn Blanchard requested similar information from Petitioners by email. During the hearing, Petitioners objected to the necessity of providing such information on the grounds that it was beyond the scope of the Board's inquiry as set forth in ORS 221.031.

In the spirit of cooperation and collaboration, Petitioners have prepared the attached "Hypothetical Quarterly Breakdown of Projected Oceanside Income/Expenses" for the Board's review. These enclosures were also shared with Tillamook County Treasurer Shawn Blanchard in a meeting on July 7, 2022. She reviewed them in detail, noting that the numbers are sound and the projections are based on figures obtained from her office and from Denise Vandecoevering, the Tillamook County Assessor.

In providing this information, however, Petitioners wish to clarify that they do not concede the Board's statutory authority to require such detailed and speculative hypotheticals as a precondition for approving the Petition. To the contrary, we specifically preserve our objection that such a demand exceeds the scope of the statutory inquiry, and that the Board would commit legal error were it to rely on any disagreement or dissatisfaction with these projections as a basis to deny the petition. For clarity, we restate our objection and its statutory basis below.

The incorporation statutes do not contemplate or authorize the Board to act as a political body that raises and evaluates the answers to its own questions or objections regarding practical implementation of the projections in the EFS. To the contrary, the statute charges it to act as an impartial <u>court</u> to hear and adjudicate objections raised by third parties and property owners. Furthermore, such objections must relate to whether the petition and EFS adequately address the elements specified in the statute itself, not raise additional questions the Board might choose to pose.

With regard to revenue and resources, the statute requires only that the tax rate proposed by Petitioners "would generate operating tax revenues <u>sufficient</u> to support an <u>adequate level</u> of municipal services." ORS 221.031(3)(c) (emphasis added). Similarly, the statute <u>explicitly states</u> that Petitioners are <u>only</u> required to submit "first and third <u>year</u>" budgets. ORS 221.035(2) (emphasis

added). Taken together, these statutory provisions require only that Petitioners provide hypothetical first and third-year budget projections to demonstrate a sufficient <u>amount of annual revenue</u> to fund the municipal service contemplated in the EFS. Nothing in the text of the statute, legislative history, or case law authorizes the Board to go beyond examining the feasibility of Petitioners' projections of annual revenue "levels" by engaging in conjecture about how the city council would structure monthly or quarterly cash flow tables linking projected services to individual accounts.

Additionally, such speculative projections provide no substantive information of practical import. At best, they represent a hypothetical scenario that may be ignored or altered by the City Council of Oceanside once it begins to actually implement and fund city services. In other words, once Petitioners demonstrate that the <u>amount</u> of projected <u>annual</u> revenues are "sufficient to support an adequate level of services" as the statute requires, a hypothetical breakdown of monthly or quarterly cash flow does nothing to further the statutory analysis. Aside from the permanent tax rate cap, the future City Council may ultimately allocate resources in an entirely different manner or implement services in accordance with a completely different cash flow timeline in any given year, depending on actual circumstances, resources and public sentiment at the time. The legislature, in crafting ORS 221.031 and 221.035, did not vest the "county court" with the authority to require such clairvoyance of the Petitioners.

In summary, if the Board bases any part of its decision on some disagreement or perceived shortcoming in the hypothetical quarterly breakdown or the implementation schedule it implies, it would constitute an error of law because evaluating such information would amount to rendering a political decision about whether the incorporation projections are "prudent" or "optimal," not whether incorporation would be "feasible." *See McManus v. Skoko*, 255 Or 374, 379-380 (1970) ("There is not the slightest implication of any intent to authorize the county court, on political grounds, to deny the right of 150 inhabitants of a particular area to decide by majority vote whether to incorporate their area as a city."). If there is any indication that the Board has relied on any hypothetical itemized projections in coming to a decision, Petitioners preserve the option to appeal the Board's decision to LUBA on that issue.

Petitioners are ready to answer any questions the Board may have about the enclosures at the upcoming July 13, 2022 Hearing.

Best,

3

Laity 6/29/@ 2022

Chris -

I had just a few more points I wanted to clarify regarding our hypothetical road program for an incorporated Oceanside. These are based on my understanding of information you've provided, so please do not hesitate to amend or correct anything I misunderstood.

- 1. Oceanside's need for storm drain upgrades will eventually require action within 20-30 years regardless of whether Oceanside is incorporated. This is true of many coastal communities. This does not mean that Oceanside should forego maintenance or repairs on the roads involved until storm drains are updated. It just means that it should avoid improvements like paving that would inevitably need to be torn up for drain upgrades.
- 2. Neither the county nor any incorporated community would ordinarily be expected to account for funding such storm drain projects out of its operating budget. Instead, the prudent course would be to build a capital reserve to serve as the required "match" for outside grants that periodically become available. The \$30,000 Oceanside has tentatively budgeted should accrue sufficient funds over a 10-year period to serve as the "matching funds" such grants entail (usually 10% of the total cost).
- 3. You and other county staff have tentatively explored the availability such grants for Oceanside in the past without making much headway.
- 4. As an incorporated city with its own capital reserve, Oceanside would be in a position to qualify for such grants independently. In comparison, an unincorporated Oceanside as a practical matter - would be in competition with the county's other unincorporated communities for the limited matching funds the county has available for such grants.

If these points are accurate, you can just reply and say so. If you need to qualify or restate anything, please do what ever you feel necessary to ensure that we provide the Commissioners accurate information.

1

Thanks,

Jerry Keene

Jerry,

Your points are accurate.

Excerpts from Tabulations of Oceanside Short Term Rental Survey – July 7, 2022

1. Do you consider yourself a full-time resident, a part-time resident or an absentee property owner (pick one)? (Please also let us know if you are from a community other than Oceanside.)

Full time / non-STR Part time / non-STR	35 48
Full time / STR Part time or absentee / STR	4 <u>29</u>
Total Responses	122 (27% response rate out of 458)

7. Here are some alternatives being considered by the STR Committee. Please rate your support for each of them on a scale of 1 (absolutely oppose) to 5 (entirely support).

a. Ban and phase out all STRs

Short Term Ren	tal Operators	Non STR Owners	
Responses	Points	Responses	Points
1 28 2 5 3 0 4 0 5 0	28 10 0 0	1 39 2 9 3 16 4 5 5 9	39 18 48 20 45
Totals 33	38	Totals 78	167
Average 1.2		Average 2.1	Overall Average 1.9

b. Cap the number of percentage of homes with STR licenses in each community.

Short Term Rer	ntal Operators	Non STR Owners	
Responses	Points	Responses	Points
1 8 2 2 3 10 4 7 5 6	8 4 30 28 30	1 8 2 8 3 7 4 8 5 47	8 16 21 32 235
Totals 33	100	Totals 78	312
Average 3.3		Average 4.0	Overall Average 3.7
