Regarding Section 6.040: Review Criteria
As applies to Application for Conditional Use: Animal Daycare and Boarding Services

CONDITIONAL USE REVIEW CRITERIA

A Conditional Use shall be granted if the applicant demonstrates that all of the following applicable criteria are satisfied.

(1) The use is listed as a Conditional Use in the underlying zone, or in an applicable overlying zone.

Yes, Animal Boarding or other service is listed as a conditional use for Rural Residential 2-acre (RR-2).

(2) The use is consistent with the applicable goals and policies of the Comprehensive Plan.

Yes, I will be establishing an LLC to run a dog daycare and boarding business on the property. The small business will allow for a maximum of 10 dogs on the premises at any one time. Dogs will stay in a detached garage in a spacious kennel and may use a separate bathroom in a detached shed for bathing/grooming. A fenced-in run in the yard will provide outdoor space. The business provides a service to the County community for pet care which is currently a need.

(3) The parcel is suitable for the proposed use considering its size, shape, location, topography, existence of improvements and natural features.

Yes, the parcel is 1.3 acres, and the house is set up and shielded from the road and neighbors. No changes to the existing property are required. There are adequate buildings and spaces for taking care of dogs on the property.

(4) The proposed use will not alter the character of the surrounding area in a manner which substantially limits, impairs or prevents the use of surrounding properties for the permitted uses listed in the underlying zone.

No, the surrounding area is our neighborhood of personal homes with 2-acre parcels, farmland, and an excavating business. There is a fair amount of logging traffic and recreational traffic down from the property on Trask River Rd. This use will not disrupt others or their property use.

(5) The proposed use will not have detrimental effect on existing solar energy systems, wind energy conversion systems or windmills.

No. We have private solar panels on our home and this use will have no effect on the system. There are no other solar or wind systems on the property.

(6) The proposed use is timely, considering the adequacy of public facilities and services existing or planned for the area affected by the use.

Yes, we have adequate facilities to accommodate an additional party of guests. We have a well, adequate septic system, electricity, internet service and cellular reception on the property.
