The property can have a well drilled for up to three homes before needing water rights. At the time of building permits the well will need to be installed for the verification form to be signed. No well needs to be placed during the partitioning approval.

Hello Don,

Thank you for sending this over and providing an update on your movements with the Water Verification Letter still pending. As far as 1 well servicing both proposed Parcels, so long as that use and ability is verified with the Oregon Water Resources Department, Nikki Hendrix, there is no concern on our end with that direction. Please note, an easement will be required on proposed Parcel 2 allowing access for proposed Parcel 1. The easement requirement will be placed as a Condition of Approval on the Staff Report.

Mr. Wald did sign and return the Incomplete Application Response Form (180-day letter) and the 150-day waiver. This acknowledgment allows an extension of time for the application request to be deemed complete, therefore, 180-days from application submittal (December 2, 2022) provides the applicant and/or owner until May 31, 2023 (180 days), to provide the required item(s) to deem the application complete. So long as the application has been deemed complete, within that timeframe, staff may proceed with rendering a decision.

Should the application not be deemed complete within the 180-days the application will be void. Should you feel this extension of time is not adequate with your timeline to complete the well drilling and obtaining the Water Verification from Nikki, the ability to withdraw the application at any time is within you, or Mr. Walds discretion.

Best Regards,

Angela,

We met with Nikki Hendricks to check out the spring. She cannot certify it as their water source so Mr. Wald is going to need to drill a well.

He is going to change the layout of the partition and make 2 parcels, one on each side of New Miami River Road., see attached preliminary plat.

He plans on drilling a well near the house on parcel 2 to service both parcels. He wants to make sure there are no issues with servicing parcel 1 across New Miami River Road with the well he will drill on parcel 2.

Also, it is going to take a while to get the well drilled, do we need to sign the waiver to hold the application so we can get the well drilled?

Thanks,

The two tracts of land are referred to as the Westerly Tract and the Easterly Tract. The Westerly Tract lies west of the historical boundary line and is improved with a single-family dwelling and accessory structures. The Easterly Tract lies east of the historical boundary line and contains no structures. The adjustment of the historic boundary line will result in the location of the structures being located on the Easterly Tract and no longer on the Westerly Tract. Grantors and Grantees desire to adjust the common historic boundary line on Tax Lot 1N10020000100 to conform to that certain Property Lot Line Adjustment Review, Tillamook County Case File No. 85-22-0000784-PLNG; WALD.

Therefore, RICHARD F. WALD and ROBERTA G. WALD, GRANTORS, convey a certain portion of the Easterly Tract to the Westerly Tract, resulting in the Westerly Tract now described in the attached Exhibit A Westerly Tract, and the resulting Easterly Tract now described in the attached Exhibit B Easterly Tract.

The said conveyances herein being made to relocate the historic boundary line in Tax Lot 1N10020000100, and maintaining two parcels which are now legally described as set forth in Exhibit A Westerly Tract and Exhibit B Easterly Tract and does not create any new parcels.

PURPOSE: This conveyance is made solely to relocate the common boundary line between the adjoining tracts. This conveyance is made solely as an adjustment of the historic boundary line located on Tax Lot 1N10020000100 such that the Westerly Tract shall contain 25.84 acres more or less, and Easterly Tract shall contain 19.22 acres more or less and does not create any new parcels. This deed is given in satisfaction of a condition of approval received from Tillamook County per File No. 85-22-0000784-PLNG; WALD. This boundary line adjustment deed is subject to the provisions of ORS 92.190.

Actual consideration for this conveyance is pursuant to the above-referenced Lot Line Adjustment and given for the benefit of Tillamook County.
