An order adopted by the Tillamook County Board of Commissioners on September 1, 2009 states that a fee of \$75 shall be collected when a private water source verification is required. This fee is collected by Community Development.

Landowners are responsible for maintaining water sources, waterline easements, water rights, and wells. The information provided in this form does not guarantee that a water source will be available forever. Due to climatic conditions water sources can decline and wells can go dry. The information provided by the District 1 Watermaster is the result of a search of OWRD records and field inspections. Although a property may have water rights of record, if the water right has undergone five successive years of non-use it may be subject to cancellation under ORS 540.610. The official water right of record is kept in Salem at OWRD.

Building permit applicants who will be connecting to a local water district will be required to have the water district provider verify proof of service from the water district.
